

## Green Food Experience

### Useful Links and Promotional Templates

#### Templates

In order to help you promote your event, we have created design templates for you to use on social media as well as printable material to hang in a public space on campus. These templates feature images and text corresponding to a picnic, taco night, build a bowl, breakfast, and food tasting event. The text can be translated into your own language or customised to suit your particular event. Please look through the templates and find one that fits your needs.

To use these templates, please create a free Canva account [here](#). Then choose a template from below, click the link, and open the design in Canva. Within the design, you have the ability to edit the title, event description, location, time, and the info box. Select any of the text boxes and start adapting the written content. Please utilise the font size function to increase or decrease the text as necessary, making sure to leave enough negative green space around the words in order to maintain readability. When you are satisfied with your edits, use the drop down menu under “File” to download your design.

If you run into any hiccups while editing the text, there are many free, instructional videos on youtube that detail how to use Canva. We hope these templates help you reach more guests!
